

INDIAN RAW COTTON

We are exporter of all types Indian Raw Cotton. India has the advantage of growing all species of cotton i.e. from short staple 20mm & below, medium staple (20.5 to 24.5mm), medium long (25.0 to 27.0mm), long (27.5 to 32.0mm) and extra long staple cottons (32.5mm and above). India produce large number of varieties and hybrids, number of varieties in cultivation exceeds seventy-five. However, 98 per cent of the production is contributed by about 25 varieties. In India, the states of Gujarat, Maharashtra, Andhra Pradesh and also Madhya Pradesh are the leading cotton producing states. These states have a predominantly tropical wet and dry climate.
